

Dear [Sir/Madam],

I am excited to apply for the **IT Support Engineer** role at [**Taq**]. With [7 +] years of experience designing, deploying, and maintaining scalable IT infrastructure—including networks, servers, Switches, P2P, Mikrotik devices, network Protocol, CCTV Technician , LAN and WAN installation, Fiber Optic Troubleshooting, FTTH Project implementation and virtualization—I am confident in my ability to enhance your organization's operational efficiency and security.

Key strengths I bring include:

- **Platform** :(Win11, linux)
- **Concepts** : Network, Server, Data base
- **Expertise** : Servers (DNS, FTP, NFS, NIS, DHCP, NAT, OSPF,BGP,EIGRP,VLANs,VTP,DMVPN,Trouble shooting.
- **IT Expertise** : (CCNA, CCNP, N+, A+, MCSA, MCSE, Firewall, Hardware, Protocol configuration, Network Trouble shooting.
- **Device Config** : router, switch, tplinkmodem, p2p Rocket M5, Firewall, AP, CCTV Camera, Mikrotik Router.
- Fibre : Trouble shooting, cable splicing, cable installation.

I'd welcome the opportunity to discuss how my skills align with your team's goals. Thank you for your time—I look forward to your reply.

Best regards,

[Mohammad Nabi Hemat(IT/Network Officer In AFTEL)]
