INTRODUCTION TO AL HARF AL JADID LINOTYPE

Al Harf Al Jadid font is a display typeface:

Al Harf Al Jadid Two being an outline version of the black titling font Al Harf Al Jadid One. Their design delivers ultra bold, but readable, Naskh, in response to the needs of secular lettering for emphatic headlines and signs. Al Harf Al Jadid One and Two are characterized by a distinctive, strong baseline-stroke, reminiscent of a similar hand-rendered technique traditionally used in Arabic calligraphy to achieve a bold appearance.

Initially developed as digital fonts by Linotype-Hell Limited in the mid-1980s, Al Harf Al Jadid One and Two have remained amongst the most popular heading faces used in Arabic magazine and newspaper publication. In 2001 these typefaces became available in OpenType font format.

Al Harf Al Jadid is a Trademark of Heidelberger Druckmaschinen AG, which may be registered in certain jurisdictions, exclusively licensed through Linotype Library GmbH, a wholly owned subsidiary of Heidelberger Druckmaschinen AG.

INTRODUCTION TO OPENTYPE FONTS

OpenType “.otf” fonts are compact single-file cross-platform fonts, which can have extended language support based on Unicode, and enhanced typographic layout features. For OpenType information, including application compatibility notes, Glyph Complement PDFs, and Specimen Book PDFs, visit Adobe’s Web site at <http://www.adobe.com/type/opentype>.

FOLDER CONTENTS

2 font files (one style per file) and this presentation pdf.

One : Al HarfAlJadidLinotype-One.otf

Two : Al HarfAlJadidLinotype-Two.otf

OPENTYPE FEATURE HIGHLIGHTS

The most prominent OpenType layout features in these fonts are: Arabic/Hindi/Farsi figures, letters used in Farsi, standard ligatures and mark positioning. Note that the choice of which OpenType features are supported is specific to each application.

LANGUAGE COVERAGE

Arabic, Farsi.

WINDOWS CODE PAGES SUPPORTED

1256 Arabic

MAC OS LANGUAGE SUPPORT

On Mac OS 9.x only the MacRoman encoding is supported for OpenType font. Therefore support for Arabic and Farsi will be available only in Adobe ME applications. For this reason you have to install the fonts (the 2 .otf files) in Adobe font folder : HD\Application Support\Adobe\Fonts.

Mac OSX.1.5 is still not supporting Arabic. This support should be available in future Mac OSX releases.
